Dear Mr. Helms:

We have undertaken a large-scale reorganization of the Public Buildings Service of this agency designed to improve their responsiveness to the requests of Federal agencies. This new organization will also permit us to fulfill our responsibilities assigned to us by recent Presidential directives which have an impact on the housing of all Federal agencies.

Under the reorganization, we will have a planning office which will concern itself with the implementation of the Intergovernmental Cooperation Act, Executive Order 11512, "Planning, Acquisition and Management of Federal Space," and the various directives requiring enforcement of environmental quality requirements.

Of more immediate interest to your offices will be the change which has been made with respect to Public Buildings Service activities operations in the National Capital Region. We have transferred all of the design, construction, and space management functions performed for the District of Columbia and the states of Maryland, Virginia and West Virginia to the Central Office. These functions were formerly performed by the General Services Administration, Region 3 office under the jurisdiction of our Regional Administrator and Regional Director, PBS. The new organization will permit my more direct involvement with matters which may be of concern to your office, and should assure better communication and more satisfactory performance.

The Commissioner of the Public Buildings Service, Arthur F. Sampson, is also my Deputy Administrator for Special Projects. He has the responsibility to put this new organization into operation and will be of invaluable assistance to me in carrying out President Nixon's program for the National Capital Region. I can assure you of his desire to meet your needs promptly and efficiently.

Sincerely,

Robert L. Kunzig
